MaCoi Hollins

Healthcare Analytics & Data Science

Kenner, LA | mcoi22@outlook.com | mhollins@sandiego.edu | github.com/MaCoiCH-22

Reimbursement analyst and graduate data science student. Built a Python application that automates Medicare bad debt log scrubbing across inconsistent hospital workbooks. Earlier experience includes clinical research data quality.

Technical Skills

Tools: SQL Server (T-SQL), SQLite, Python (pandas, openpyxl, scikit-learn), Excel (PivotTables, macros), Git/GitHub. Graduate coursework: R, statistics, machine learning, and time-series analysis.

Professional Experience

Reimbursement Analyst | Genesa Reimbursement Group | 2026–Present

- Built a Python application that automates Medicare bad debt log scrubbing across hospital Excel workbooks with varying layouts and data quality.
- Designed the application to inspect workbooks, standardize log data, and flag exceptions. Analysts guide field mapping and review outputs before use.

Clinical Research Data Coordination | DelRicht Research | Contract, 2025

- Compared captured trial data with source records across concurrent studies and worked with clinical teams to resolve discrepancies.

Additional Experience

OutSolve | Production Associate | 2024–2025. Validated workforce data for compliance reporting.

Eurofins | Laboratory Technician | 2024. Documented testing and chain of custody.

General Meyer Pharmacy | Pharmacy Operations | 2022–2023. Maintained prescription and insurance records.

The Times-Picayune Doll & Toy Fund | Data Manager and Analyst | Seasonal. Managed donor records and recurring reports.

Selected Projects

Clinical Trial Registry Intelligence | Python, SQLite. Measured results availability across 5,524 public trial records. Of 4,466 completed trials, 1,264 had posted results at the snapshot.

Clinical Data Quality Engine | Python, SQLite. Evaluated 1,156 synthetic FHIR entries and traced 28 quarantined entries to failed upstream records.

Education

University of San Diego | M.S. Applied Data Science, expected summer 2027

Dillard University | B.S. Chemistry, 2022

Xavier University of Louisiana | Professional pharmacy coursework
